

LED Digital Indicator Module

Part Number: 201-0004

Applications

- Plug in digital indicator for use with transmitters having 4-20mA output and E1 (DIN 175301-803 A) electrical connection
- Indicator face plate can be turned in 90° steps for multiple viewing angles
- Requires no external power
- 4 Digit LED display

Technical Data

Power supply : Loop-powered
 Integrated ADC: 16 bit
 Display: -1999 to 9999
 Input: 4-20mA
 Output: 4-20mA

Circuit Protection: Protected against reverse polarity and short circuits
 Working Temperature: -4 to 158°F (-20 to 70° C)
 Stock Temperature: -22 to 185°F (-30 to 85° C)
 Protection: IP 67
 Approximate Shipping Weight: 0.15 lbs [0.07 kg]

Dimensions

All dimensions are nominal. Dimensions in [] are in millimeters.
